

PICOZEN EDU

A step closer to technology

Kripa Ruia Founder-Mentor

Robotticaa was created to bridge the #1 gap in the global education system.

We have successfully trained 3000+ students across India in the field of Computing, Robotics, IoT in a span of 5 years.

Your Kids Will Learn

Logic

+75% improvement

Sequencing

Structure

**Algorithmic
Thinking**

**Creative
Expression**

Build Animations,
Games, and Apps.

**Computers and software
are changing everything...**

Some may think:

Computer science is just about learning technology

~~Computer science is just
about learning technology~~

**Computer science is
about logic, problem
solving, and creativity**

First computer: 1943

Ada Lovelace

First computer: 1943

First computer program: 1843

Did you know that FIRST CODE was written by a woman?

INDIAN WOMEN IN STEM LEADING AN EXAMPLE

Indian Women in Science Who're Making the Country Proud

[Seetha Coleman-Kammula](#) [Mallika Srinivasan](#) [Nandini Harinath](#)
[Dr. Indira Hinduja](#) [Swati Piramal](#) [Tessy Thomas](#)
[Kiran Mazumdar-Shaw](#) [Sudha Murthy](#)

What is computer programming?

- A set of commands a computer understands – like a recipe.
- Computer programs can help cure diseases; drive cars; create video games; make animated movies/graphics; build websites and apps; and much more.
- Basic coding concepts are used by most every program and most every programmer.

What is Robot?

- A Robot is a programmable mechanical device that can perform tasks and interact with its environment, without the aid of human interaction.

What is Robotics?

- **Robotics** is the interdisciplinary branch of engineering and science that includes mechanical engineering, electronics engineering and computer science.
- Robotics deals with the design, construction, operation, and use of robots.

Industrial Robots

Surveillance Robots

Robots for Medicine

Robots for Research

Coding Tips & hacks

- Think and work about the problem in hand.
- Draw a flow chart or write an algorithm.
- Fine tune the basics
- Don't get disappointed by bugs
- Use online forums for support

Top 3 reasons on why to code

- Coding is the Most Important Job Skill of Future
- Coding enhances problem-solving and critical thinking skills.
- Coding allows ideas to take shape

**CREATING CONFIDENCE
THROUGH CODING**

What do you want to make?

THE GAME DEVELOPER

WHAT I CREATE

Online, mobile, and other platform games

- Battlefield (cross-platforms)
- World of Warcraft (PC only)
- Clash of Clans (mobile only)

WHERE I WORK

- Computer game businesses
- Game publishers

LANGUAGES

- C
- C++
- C#
- Java

OTHER SKILLS

- Design capability
- 2-D or 3-D modeling ability
- Works well under pressure
- Knack for problem solving

THINGS I LIKE OUTSIDE OF WORK

- Shopping online for classic Nintendo games
- Playing World of Warcraft and Tetris
- Attending eSports events

THE MOBILE APP DEVELOPER

WHAT I CREATE

Apps for mobile devices, primarily iPhone and Android.

- Banking apps
- Netflix mobile app (music/video streaming apps)
- Social media mobile apps (Facebook, Instagram, etc.)
- News apps

LANGUAGES

- Objective C
- Java

OTHER SKILLS

- Interest in various technologies and devices
- Proficient in software architecture

WHERE I WORK

- Freelance
- Tech companies and startups
- Software development firms
- Agencies

THINGS I LIKE OUTSIDE OF WORK

- Playing Clash of Clans
- Lengthily debating who reigns supreme: Android or iPhone
- Reading up on new programming languages

Source: <https://www.udemy.com/>

THE WEB DEVELOPER

WHAT I CREATE

Applications that run entirely in-browser

- Websites
- E-commerce websites (Amazon, Ebay, Etsy, etc.)
- Social media websites
- Educational websites (Wikipedia, Dictionary.com, etc.)
- Search engines

LANGUAGES

- C#
- Java
- PHP
- SQL
- Ruby
- Python
- JavaScript

WHERE I WORK

- Various corporations
- Government organizations
- Freelance
- Tech companies and startups
- Software development firms
- Agencies

OTHER SKILLS

- Proficient in data utilization
- Web server knowledge

THINGS I LIKE OUTSIDE OF WORK

- Stocking up on candy and Mtn. Dew for the office
- Optimizing life's inefficiencies
- reddit.com/r/programming

Source: <https://www.udemy.com/>

THE SOFTWARE DEVELOPER

WHAT I CREATE

Software for specific operating systems

- Microsoft Office
- Quicken
- iTunes

WHERE I WORK

- Software publishers
- Tech companies and startups

LANGUAGES

- C
- C++
- Java
- SQL
- Python

OTHER SKILLS

- Great problem-solving skills
- Ability to interpret employer/client issues and needs

THINGS I LIKE OUTSIDE OF WORK

- Staying far away from computers (except for Netflix)
- Building mathematically complex origami
- Trying to find a faster way to calculate a square root

Problem solving

Listening
and speaking
(communication)

Creativity

Critical and
analytical thinking

Leadership

Teamwork

Staying positive
(resilience)

Adaptability

Technology affects *every* field

Every 21st century student should have a chance to learn about algorithms, how to make apps, and how the internet works.

Why should Coding be taught from school level?

PicoZEN Edu

Coding | Robotics | Microcontrollers

Join us to be head-first with technology!
